

## Alarms and Displays

### Tacho

- Panel-mounting DIN style meter capable of use as a tachometer or timer
- High visibility 6-digit vacuum fluorescent display
- Accepts a wide range of sensor inputs e.g. M800, Whirligig + proximity switch
- User/factory programmable
- Output displayed in "real" engineering units

### X400

- Alarm monitoring system
- Alarm indication panel with external alarm horn
- For use with level indicators, hazard controls and limit switch devices
- Uses microprocessor unit and various sensors to monitor up to 8 alarm zones
- Dust hazard approved
