

KC Supply's Grain Entrapment Yellow Rescue Tube (Cofferdam)

KC Supply's rugged aluminum grain rescue tube is designed to prevent a trapped worker from becoming another statistic. Each tube's sections acts as a shield so that the grain (which is pressing against the victim) can be removed. Once the grain level is reduced, the victim can be extricated.

* Four or Six-Section Tube

- Top-rated design for ease of use
- Designed for repeated usage as well as frequent training
- Insert sections without need for extra tools or hammer (which can be lost or cause injury)
- Use any combination of sections (one, two or all) - helpful if victim is trapped against equipment thus preventing a full enclosure
- Maintain contact with victim at all times
- No lifting overhead requiring more room
- Rigid and not prone to warp
- Sections not designed to flex or fold over
- Opening Requirements

Sections Round Square

4-piece	24"	18"
6-piece	17"	13"

- Powder-coated safety yellow
- Durable, lightweight aluminum with total weight less than 120 lbs
- Extensively tested design
- Used by numerous training companies and fire depts.
- Overall dimensions approx 28" ID x 37" OD x 60" Tall

(3) Internal Handles / Steps:

- Tie-off points
- Hand Holds
- Allows 1st responders access to perform 1st aid

Large V-Groove
Quickly connects sections without lifting overhead

(2) Clamps per section

(3) External Handles

- Carrying handles
- Foot peg drives section into grain
- Allows rescuers to provide aid while maintaining contact with victim

Platforms (18x18)

Durable with deep, gripping ribs
Provides more stable footing
Use with any style of rescue tube

Various Configurations

Rescue Auger (patented)

Waterproof Carrying Bag:

Handles on sides and ends for ease of carrying / lifting
